

Prasanna T

B.Tech Information Technology Graduate | Aspiring Software & IT Professional | Email: prasanna261103@gmail.com | Contact No: 6369849984 | Location: Bengaluru, Karnataka

CAREER OBJECTIVE

Motivated and detail-oriented B.Tech Information Technology graduate with a strong foundation in software development, programming and database management. Skilled in Python, SQL, HTML and JavaScript, with knowledge of object-oriented programming, data structures, debugging, testing, and software development principles. Familiar with Git, Software Development Life Cycle (SDLC), and Agile methodologies. Possess strong analytical, problem-solving, and collaboration skills with the ability to develop efficient, scalable, and maintainable applications. Eager to leverage technical expertise and continuously enhance programming skills while contributing to innovative software solutions and organizational growth.

EDUCATION QUALIFICATION

Bachelor of Technology – Information Technology, Bharathidasan Engineering College, Tirupattur
Completed: 2026 | CGPA: 8.17

HSC – YMCA Brown Memorial Matric Higher Secondary School, 2022 – 75%

SSLC – YMCA Brown Memorial Matric Higher Secondary School, 2020 – 92%

PROJECT EXPERIENCE

Face Recognition–Based Voting System

(Python | Django | MySQL | OpenCV | Git | PyCharm)

- Built a secure facial recognition-based voting system ensuring accurate and reliable voter authentication
- Developed scalable backend using Django framework and efficiently managed relational data with MySQL
- Integrated OpenCV for real-time face detection and recognition, utilizing Git for version control and updates
- Enhanced overall system reliability through structured testing, debugging, optimization and teamwork

Key Skills: Python, Django, MySQL, OpenCV, Git, PyCharm, Database Management, Testing, Team Collaboration, Performance Optimization

SmartTask – Productivity and Task Management App

(React Native + Expo | Supabase | Clerk | SQLite)

- Designed and developed a cross-platform task management app using React Native (Expo) with modular architecture for scalability
- Integrated Supabase for backend handling and SQLite for secure offline storage and real-time synchronization
- Created a responsive user interface with smooth animations, optimized performance, and modern UI design
- Implemented Clerk authentication for secure access and improved reliability through testing and debugging

Key Skills: React Native, JavaScript, Supabase, Clerk, SQLite, AsyncStorage, UI/UX, Testing, API Integration, Troubleshooting, Collaboration

TECHNICAL SKILLS

- **Programming Languages :** Python, SQL, Java (Basics), HTML (Basics), C (Basics)
- **Frameworks & Tools :** Django (Basics), Git, MS SQL Server, VS Code, PyCharm (Exposure to React Native, Power BI, Tabelau)
- **Core Concepts :** OOP (Python), Data Structures & Algorithms (Basics), Database Management (SQL), Web Fundamentals
- **Soft Skills:** Problem Solving, Analytical Thinking, Teamwork, Communication

CERTIFICATION & WORKSHOPS

- DELOITTE – Data Analytics job simulation
- Cognitive Class.ai – SQL and Relational Databases 101 powered by IBM Developer Skills Network

LANGUAGES

- ENGLISH
- TAMIL
